Dear Colleagues,

NTA has been asked to assist with an important initiative called O*NET (Occupational Information Network- www.onetonline.org), a project for the U.S. Department of Labor and America's primary source of occupational information. O*NET is updating the occupational classification of **Hunters and Trappers.**

We have been asked to invite our members with expertise in this occupation to volunteer to help by providing input about the work you do to ensure an accurate and up-to-date summary of the occupation.

## Do you meet the following criteria as an occupational expert?

1. **Does the work described below match the work you're doing now or have done in the past?**

 O*NET-SOC Code:  45-3021.00
 Description:  Hunt and trap wild animals for human consumption, fur, feed, bait, or other purposes. Hunt and trap wild animals for human consumption, fur, feed, bait, or other purposes.

2. **Do you have at least 5 years of experience with this occupation?** *Experience = practicing the occupation but also includes those who have at least 1 year of practice who are now training, instructing or supervising those in the occupation (5 years combined experience)*

If you said yes to the two questions above, please forward your name and contact information to the O*NET Business Liaison **tbelcher@onet.rti.org  or call 877-233-7348 ext. 119.**  The researchers will invite a random sample of those responding to provide input via questionnaires. A Certificate of Appreciation from the U.S. Department of Labor and $40 in cash will be included with the questionnaires as a token of thanks.

We hope you will consider assisting with this important research as it will be of great benefit to millions of students, educators, job seekers, and employers in our nation.

If you have questions about the O*NET research, please contact Tammy Belcher at RTI International: 877-233-7348 ext. 119 or tbelcher@onet.rti.org  Thank you for your support of this research and of NTA.
